VALE BRAND

Premium Wire Nails & Panel Nails
ROUND HEAD | PERFECT GAUGE | SHARP POINT

INTRODUCTION

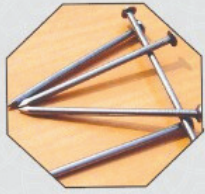

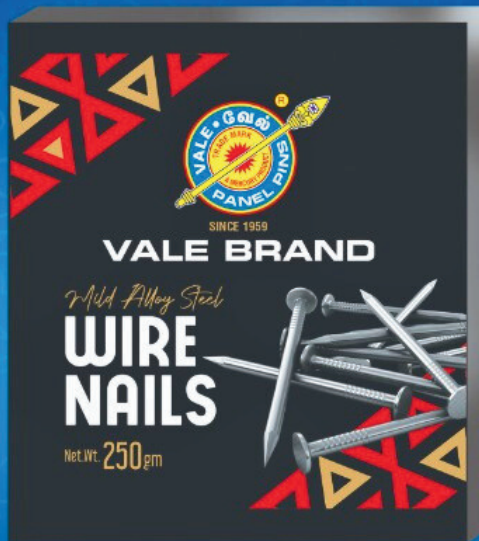

We take this opportunity to introduce ourselves as one of the leading manufactures os WIRE NALS and PANEL PINS in the name of VALE BRAND NAILS (THE PRODUCT OF MERCURY INDUSTRIES).

VALE BRAND was incorporated by Mr.A. Muthaiyah in the year of 1959, With his own experiences gained from Germany.

We are the first Company in india to introduce AUTO-MATIC PACKING for NAILS

WHY VALE BRAND

1. Vale Brand nails are manufactured out of Standard Quality of ISO 9001-2008 wires,
2. Manufacturing process involves producing the nails at proper gauge with accurate length at constant weight,
3. To ensure greater life of our nails we perform double polishing using soft powder which results highly polished and rust free nails
4. Quality checks are done to save customer's time and money. This process will give customers 0% wastage in nails.

COMMON NAILS

Common nails also known as wooden nails, iron nails, wire nails. We provide common round iron nails made from iron. Common nails are used in wooden cased, building of bright double polished normal wire nails.

STAINLESS STEEL NAILS

Made from stainless steel. Steel common nails are mostly used in furnitures and framing.

HEADLESS NAIL

Vale brand supplies steel finishing nails (headless nails) ranges from 13 to 48mm.

Technical Info: Cupped head, smooth shank, diamond point polished surface

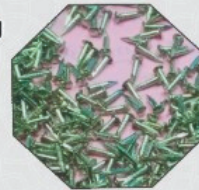

Finish: Bright or electro galvanized

Uses: Headless finishing nails are used for furniture-making, interior or exterior upholstery.

BRUSH NAIL

The Brush Nails are used in automatic brush nailing machine it used for the manufacturing of Paint brush

GALVANIZED NAILS (Rust Roof)

Vale brand supplies common round wire nails with the surface finishes of electro galvanizing and hot dipped galvanizing, this type of galvanized round wire nails are general-purpose nails commonly used Madular kitchen wadrobe
